

Trustee Profiles

Dave Shraga – Trustee

"I support EL and want to be a part of the charity, because like EL, I strongly believe in the social model of disability. I also believe that, in order to achieve the changes we want in our environment, it is our responsibility to make those changes happen. This is the role that I see DPO's such as EL fulfilling. Removing the barriers that disable any group of people is obviously beneficial for that group, but more than that, it has a synergistic benefit for the whole of our society.

By being a part of EL I hope my experience and skills will contribute to the goal of achieving equality in our society and making the vital changes that improve all our lives. "

Shaun McGarry – Chair

"I am very passionate to see Equal Lives grow and transform into a dynamic and streamline organisation, ready to fit into the modern post Covid era. My ongoing challenge is to overcome the legacy of the pandemic, of regaining lost equality and rebuilding the public awareness of all the disabling barriers we all face. I have been a trustee of Equal Lives for 9 years now and I am very keen to finish my job for us to grow bigger and better. I would like to put myself up to re-election, as your Chair, for an additional year, to execute a specific program of recruiting more Trustees to the board, to strengthen it and mirror the wider changes happening to us all."
